Dear Group Leader,

I hope my email finds you doing well. This update is to share the great news that Pilgrim Tours resumed safe and successful tour operations in February. Those on tour enjoyed touring all the main sites except for the extreme north (Tel Dan & Caesarea Philippi) which are currently closed. The consensus of the travelers is they had a wonderful time and were blessed to be guided through their Holy Land experience. Please see some testimonials from the groups...

Testimonials

"Every place we visited was breathtakingly beautiful, with stunning landscapes and rich historical and cultural heritage. We highly recommend visiting Israel to anyone who wants to experience an unforgettable journey. We had a life-changing time there and are already planning to return."

Simon L. and Beatriz G. – Tour to Israel/Egypt/Jordan February 2024

"I would like to thank Pilgrim tours and their staff for making this once in a lifetime trip so great, we have been truly blessed to visit the holy land and live the word of God. I truly believe that our lives have been changed for the better and it is all Thanks to God first and second to Pilgrim tours for making this trip possible through their tireless efforts with all our questions despite the setback of the war. We have had the most amazing time and truly our Israeli brothers and sisters are greatly in need of our support as believers in this time; so I encourage all those who read this review to support our brethren in Israel and come visit this wonderful country; for we have had nothing but peace while we were there.

SHALOM! SHALOM!"

Eric – Tour to Israel February/March 2024

"I had a wonderful time in Israel. I felt while I was there the precautions that were taken for our safety were well in hand. I still got to experience many holy sites and be blessed by walking the path that Jesus walked. Every day was started in prayer, singing, or scripture reading which also extended the blessing of the trip."

Quincie L. – Tour to Israel/Egypt/Jordan February 2024

Looking ahead, Pilgrim Tours has multiple tours scheduled to operate in April and throughout 2024. From a day-to-day life perspective, Israelis continue to live normal lives as the unrest is occurring in remote areas that do not affect most of the population. They are going to work, school, daycare, restaurants, vacationing in-country and internationally, and US flights have resumed service to Tel Aviv.

Please share this update with your group and any potential passengers who requested an update on the current situation. We look forward to continuing to provide updates.

If you received a quote and have not responded, please provide an update so we can reserve your space. For those that are looking to plan a tour, now is a great time to begin the process for not only Israel but for all Bible Land sites and destination offered by Pilgrim Tours.

God bless and Happy Easter,

Jessica Leinbach
